

## Enlist E3® Soybeans: Quick Facts & Application Guidelines

### Overview: The Enlist™ system in soybeans

<b>Soybean technology</b>	Enlist E3® soybeans
<b>Trait provider</b>	Corteva Agriscience
<b>Herbicide tolerances</b>	2,4-D choline, glyphosate, glufosinate
<b>Labeled 2,4-D herbicides</b>	Enlist Duo® herbicide (2,4-D choline & glyphosate blend) Enlist One® herbicide (2,4-D choline)
<b>Key weeds controlled</b>	Common ragweed, giant ragweed, lambsquarters, marestail <sup>1</sup> , morningglory, pigweed (including Palmer amaranth <sup>1</sup> ), velvetleaf, waterhemp and more
<b>Drift profile</b>	Reduced physical drift potential (up to 90% reduction compared with traditional 2,4-D, when used with labeled low-drift spray nozzles)
<b>Volatility profile</b>	Near-zero volatility (up to 96% reduction compared with 2,4-D ester)

<sup>1</sup> May require a broader management plan including timely application and use of a soil residual herbicide.

### Use as part of a herbicide program approach on Enlist E3 soybean acres:

### Learn more about Enlist E3 soybeans

On the back, learn about applying Enlist herbicides.

# Apply with confidence

Review before spraying to ensure successful applications. For detailed instructions, visit [Enlist.com/Apply](https://www.enlist.com/Apply). Always follow all label requirements.

## Before spraying

### Application window

Am I spraying when weeds are less than 6" tall? Applications of an Enlist® herbicide have a **wide window of application** on Enlist® crops.

### Tank-mix partners

Have I checked [EnlistTankMix.com](https://www.enlist.com/EnlistTankMix.com) for qualified tank-mix products before planning my application?

Am I using **multiple effective sites of action**? Pair Enlist One® herbicide with Liberty® herbicide or Durango® DMA® herbicide based on need.

### Nozzles

Am I using qualified nozzles and corresponding pressure combination to provide **optimum spray coverage**?

### Sprayer contamination

Is my sprayer **clean** from prior applications to avoid tank contamination?

## Pay special attention to wind and weather conditions

### Wind speed, weather

Is the wind speed **from 3 to 10 mph**? Have I made sure there is **no temperature inversion**?

### Susceptible crops

Is the **wind blowing away** from adjacent susceptible crops, including cotton without the Enlist® trait, tomatoes, grapes and cucurbits?

## Application

### Spray volume

Am I spraying when weeds are less than 6" tall? Am I applying a spray volume of water **no less than 10 gal./A**?

### Spray rate

Am I spraying Enlist Duo® herbicide at **4.75 pt./A** or Enlist One herbicide at **2 pt./A**?

### Spray pressure

Am I spraying at the right pressure within the **labeled range for optimum coverage** with the nozzle I selected?

### Boom height

Is my boom height **no more than 24" above crop canopy** when applying an Enlist herbicide?

## After spraying

### Cleanout

Am I clean-water flushing with **10% of tank volume**?

Am I **triple-rinsing** when application is complete?

This reference guide is not a substitute for reading the label for Enlist One® and Enlist Duo® herbicides. Please read before application each corresponding label, which can be accessed on [www.enlist.com/en/herbicides](https://www.enlist.com/en/herbicides). Always check your state regulations and follow all state requirements for Enlist® herbicides.
